FLAVOR PROFILE

Rich, round, and complex, with flavors of fruit, freshly baked bread and treacle. Deep and dark like a porter, yet surprisingly satisfying, smooth and sensual; semi-dry without bitterness.

HISTORY

Riding tandem is double the fun; so is drinking a N.W. interpretation of the XX style. Beer was introduced to the Western world through the church. Trappist brewers in Belgium continue to brew a double style, dark brown and rich. In addition to hops, ours is seasoned with coriander, and like the Trappist beers, has added organic candy sugar. Tandem is fermented with Belgian ale yeast making it fruity and delicious with a wide variety of food.
